

HEAVY-DUTY STEAM IRON

MODEL # SK-1500
INSTRUCTIONS MANUAL

READ ALL INSTRUCTIONS CAREFULLY BEFORE USING THIS PRODUCT
PLEASE SAVE THIS INSTRUCTION MANUAL FOR FUTURE REFERENCE

Rated voltage	120V	Temperature adjusting range	150 ~ 220°C
Rated frequency	60Hz	Outside measure	30.1x12.3x15cm
Rated power	1500W	Soleplate measure	250.92cm ²
Water capacity	350g	Steam capacity	10 ~ 25g/min

MAIN FEATURES:

The product has many functions such as Auto Shut-off Function, temperature regulating, spraying, dry Ironing, steam, strong steam, self cleaning function, etc. and is with characteristics: luxury shape, high heat efficiency, easy using, good ironing result, work saving and time saving, and so on.

- A: Steam regulating Knob
- B: Strong steam button
- C: Spraying button
- D: Indicator bulb
- E: Movable wire
- F: Temperature adjusting knob
- G: Water tank
- H: Non-Stick Soleplate
- I: Spraying mouth
- J: Metal Skirt
- K: Cover of water filling mouth
- L: Auto-Shut Off Light
- M: Self-Cleaning

High precision temperature adjuster: high precision temperature adjuster was used; it is called thermostat. We fixed the temperature range according to the kind of materials.

Auto-Shut Off Function: An electronic device will automatically switch off the iron if it has not been moved for a while, it is usually 30 seconds in level state; 8 minutes in vertical state. To indicate that the iron has been switched off, the blue auto-off pilot will start blinking.

To heat up the iron again:

- Pick up the iron or move it slightly.
- The blue auto-shut off pilot light will go out. The blue temperature pilot light will come on.
- When the temperature pilot light had gone out and comes on again, the iron is ready for use.

Thermal Fuse protecting: when the working temperature passes its normal one. The fuse will melt automatically, and cut off the power supply. When the failure happens, it must be sent to its service agent in order to avoid a hazard.

STEAM IRONING:

1. Before ironing, please make sure the material can be iron.
2. Pull up the cap of water filling mouth, fill water into water tank, until it reaches the "max" position. Water capacity is 350g.
3. Push the cap back to its original position.
4. Turn the temperature regulating knob to the "0" position, ensure the iron is on the smooth and stable place vertically. Then put the plug into the socket.
5. After about 1.5 to 3 minutes, the indicator will turn off, when the indicator turn on again, your can start ironing with steam.
6. Press the steam button, the steam will spurt continuously (you can use it in vertical or flat position). If you want to stop, just turn off the steam button
7. You also could press strong steam button, and the burst steam will come out from soleplate (it could use in vertical or flat position).
8. You can use vertical ironing as well. Vertical steam ironing: convenience to iron clothes which was hung on.
9. During ironing clothes, if you need some water on the clothes for easy iron, you could press Spray button, and some water will come out from spraying mouth
10. If no steam goes out, it means no water in the water tank now. At this moment, you must turn off the steam button. If you want it to work on, pull out the plug first, then fill in water. Put the plug into the socket. Then you can continue to use it.
11. After ironing is complete, turn the temperature regulating knob to "0" position, pull the plug out of the socket. Then pour the water out and turn the temperature regulating knob to the "MAX" position. Put the plug into the socket again and press the steam button again and again, till no water inside. This method is used to prevent remained water into boiloff box, and damage the steam function.

POWERFUL STEAM SPURTING:

Strong and High-pressure steam helps to smooth the firm gauffer

Dry cleaning function:

Strong and powerful steam will give you a wonderful effect no less then dry cleaning shop.

Sterilization function:

100° high temperature steam, more than once spurt, all kinds of germs will be killed. It can be used in your kitchen, toy, mattress, sofa and so on

Take off bad smell.

Convenience:

- ④ Very easy to use without stokehold hanging
- ④ Overspeed steam spurting
- ④ Powerful steam jet
- ④ Easier heat up, you can iron clothes in minute.

ACCIDENT AVOIDANCE:

Inspection Part FAILURE	Water tank	Temperature adjusting knob	Steam bore	Power supply	Heating body power
No steam	④		④	④	④
Little Steam			④	④	④
Can not heat up		④		④	
Cloth burn and shrink		④			
Water drop from the steam bore		④			
	Water tank without water	Temperature adjusting knob in the correct position or not, choose a right temperature	Clear scale away	Check the indicate light can work or not, power supply correctly fixed	Check if the indicate light is on

CORRECT FIBRE IRONING:

⚠ CAUTION Heat sensitive clothes ironing, please cover a piece of cloth on the clothes first, then iron, or the clothes will be burnt.

Cotton material ironing, please adjust the temperature according to the heat resistant of the material.

Cloth Material	Temperature Setting	Marks in clothes	Preferable ironing method
Man-made cotton			Ironing the back of clothes without any water or cover a piece of clothes on the goods you want to iron
synthetic fibre			Dry ironing the back of the clothes
silk			Dry ironing the back of the clothes
wool			
cotton			According to the thickness and gauffer to iron with steam. For some fuscous clothes, we'd better adopt to back ironing.
Linen			

CORRECT IRONING WITH STEAM:

Electric iron is a common home appliance, to be used very frequent. Before use, please read the items as follow:

1. Fill in clean water.
2. According to different material- adjust proper temperature. If you are not familiar with the material of the cloth, you may choose a piece
3. When the soleplate reaches its adjusted temperature, then you can start ironing. Or the water will leak from the soleplate.
4. Using steam spurt to recover the elasticity of the fiber. Rub and press the polished cloth, then it will come back. If spurt steam, at the same time brush the cloth to its opposite side. The effect will be better.
5. Do not put the ironed clothes into wardrobe immediately. Hanging the clothes to clothes rack till it is cold.
6. When water tank calcified, you can use Self-cleaning function to clean soleplate. Ensure the water tank with water.
7. After ironing, pour out the rest water. If some water left in the water tank, put the plug into the socket, make sure no water in it, you can pull the plug out. Keep the iron upright. And the life of the iron can be longer.

ATTENTION

1. Please read the user's manual before using the product.
2. Before use, please check the voltage of the product if it is the same with the one in your home.
3. When using steam ironing, you are recommended to use distilled water.
4. When filling water or pouring out remaining water. Please pull out the plug first from the mains.
5. After using, turn the steam knob to non steam place, turn the temperature regulating knob to "0", pull out the plug, put the iron on the smooth and stable place vertically.
6. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
7. The iron is not to be used if it has been dropped, if there are visible signs of damage or if it is leaking.
8. The iron must be used and rested on a stable surface.
9. When placing the iron on its stand, ensure that the surface on which the stand is placed is stable.
11. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety
12. Children should be supervised to ensure that they do not play with the appliance.

6 MONTHS LIMITED WARRANTY

Smartek warrants this product for up to 6 months from provable date of purchase, against defects in material and workmanship. During this period such defects will be repaired, or the product will be replaced without charge.

This warranty does not cover damage caused by misuse, negligence or improper installation. Warranty is also invalid in any case that the product is taken apart or serviced by unauthorized service station.

TO CLAIM

Purchaser must receive a Return Authorization Number by calling our service center at **1-888-380-2111**.

Once your return has been authorized, please send your package, postage prepaid, with a copy of your proof of purchase. You will also need to enclose a letter explaining the nature of your difficulty in detail. Please allow 2-4 weeks for return shipping.
